### Original Paper

## Plasma Sialic Acid as a Marker of the Effect of the Treatment on Metastatic Colorectal Cancer

T. Painbeni,<sup>1</sup> E. Gamelin,<sup>2</sup> A. Cailleux,<sup>1</sup> A. Le Bouil,<sup>1</sup> M. Boisdron-Celle,<sup>2</sup> A. Daver,<sup>2</sup> F. Larra<sup>2</sup> and P. Allain<sup>1</sup>

<sup>1</sup>Laboratoire de Pharmacologie et Toxicologie, CHU Angers, 04 rue Larrey 49033; and  
<sup>2</sup>Centre Anti-Cancéreux Paul Papin, Angers Cedex 01, France

**The concentration of total sialic acid (TSA) is increased in the plasma of patients with many types of cancer. The purpose of this study was to assess the usefulness of the TSA marker in predicting the efficacy of the treatment, and to compare TSA with two common markers, carcinoembryonic antigen (CEA) and the carbohydrate antigen 19-9 (CA 19-9). The study was performed on 44 patients treated for advanced colorectal carcinoma by a weekly 8 h continuous infusion of 5-fluorouracil (1300 mg/m<sup>2</sup>)**

**Antiepileptic drug protein binding**

Antiepileptic drug protein binding. After absorption, drugs may bind to plasma proteins, usually albumin. The unbound portion, or free level, is what enters the brain and is pharmacologically active. Drugs that have minimal protein binding will not have clinically relevant changes in brain levels of the drug in the presence of other highly protein-bound drugs or disease states that alter protein binding, such as uremia. In uremia, free phenytoin levels can approach 30% of the total level and cause toxicity despite the "normal" total phenytoin level. Thus, adjustment of the total level is necessary to maintain an appropriate brain level of phenytoin. The

## mobileMICROMEDEX™

For Palm OS® and Pocket PC.

**mobileMICROMEDEX** provides evidence-based clinical information for physicians, pharmacists, and nurses at the point of care. Compatible with both Palm OS® and Pocket PCs, *mobileMICROMEDEX* is easy to use and provides answers to questions about drugs, alternative medicines, emergency conditions, and poisonings/toxic substances.

Users' PDAs are instantly updated every time they HotSync® (Palm) or ActiveSync® (Pocket PC) and new information is available.

Follow these easy steps to access the latest *mobileMICROMEDEX* offerings, made available to professionals.

Your facility's **Customer Number** is: **228230001**

**Step 1:** Copy (Select Ctrl C) or make a note of the customer number(above). You will be asked for this number on the download site.

**Step 2:** Go to <http://mobilemicromedex.thomsonhc.com> to register and download clinical information.

### Four clinical databases *always free* for MICROMEDEX customers:

- Drug Information
- Acute care information
- Alternative medicine information
- Toxicology information

### Other databases can be added to *mobileMICROMEDEX*:

#### Drug Interaction Tool

Check up to 32 medications at once and receive detailed interaction warnings covering severity, documentation, onset, adverse effect, clinical management, and probable mechanism. Visit our [corporate web site](#) to learn more about the drug interaction tool.

Applied Child Development

TUFTS UNIVERSITY

May 2004

© 2004, Dorothy Elizabeth Salonijs-Pasternak

ADVISER: Donald Wertlieb, Ph.D.

size and a method of analysis that would allow for causal inferences, further exploration of ego development trajectory categories, and establishing diabetes adjustment categories. Future directions for application include developing workshops or support groups to enable families to address meaning making, promoting the incorporation of family-centered care into health care systems, and encouraging clinicians to consider treatment accommodation as they develop medical care regimens for children with IDDM and their families.

Keywords: resilience, insulin-dependent diabetes mellitus (IDDM), adolescents, families, narratives, narrative analysis, ego development, longitudinal

TUFTS UNIVERSITY Graduate and Professional Studies

Office of the Dean

Certificate of Fitness

To the Dean of the Graduate School:

This certifies that the undersigned, appointed to determine the fitness of

Dorothy Elizabeth Sabius-Pastermak

for the degree of

Ph.D. in Applied Child Development

have examined the candidate's thesis/dissertation (or papers) on the subject:

Developmental Precursors of Resilient Outcomes in Young Adults with Insulin-Dependent Diabetes Mellitus (IDDM)

and have found it satisfactory.

This certifies further that the candidate this day has successfully passed the customary examination. We recommend, therefore, that the degree be awarded under the usual conditions.

Apr 17, 2004 Date of defense examination

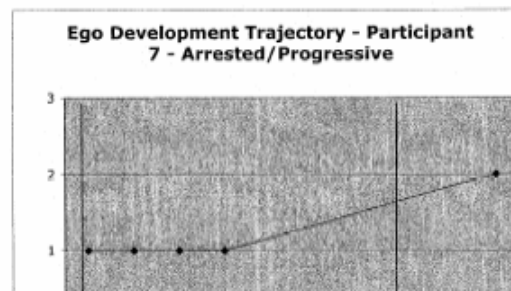

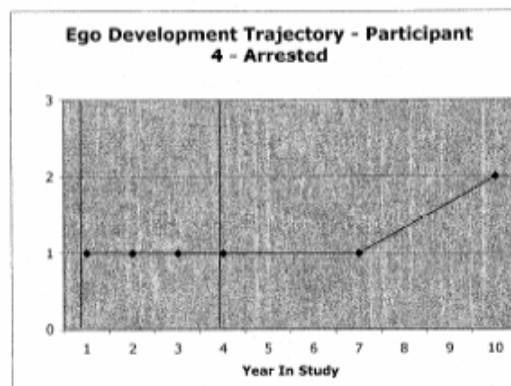

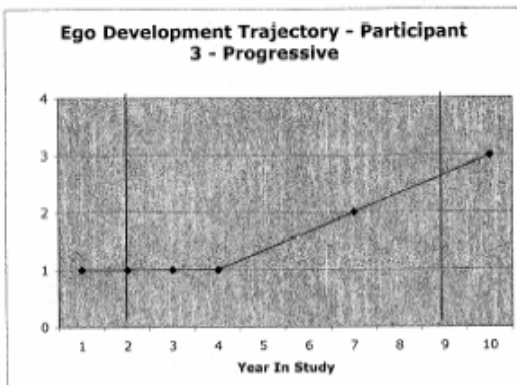

Signed

Dodd Walker Chairperson, Examining Committee

Debra W. Freeman

In the resilience group, ego development trajectories were classified as follows: one participant had an arrested/progressive trajectory, one participant had a progressive trajectory, one participant had a moratorium trajectory, and one participant had a consistent conformist trajectory.

*Ego development trajectories - poor functioning group.*

**More Like This** >> [Show Options for finding similar documents](#)**Abstract** (Document Summary)

A mammográfia a mellrák korai kimutatásának nemzetközi standardjává vált. Napjainkban növekszik a mellrák gyakorisága és a betegek mortalitása. A betegek, az orvosok és a közegészségügyi szakemberek a mammográfia hozzáférhetőségére és minőségére számítanak, hogy csökkentsék a betegség okozta szociális és gazdasági terhet. Az egészségügyi ellátás ugyanakkor az Egyesült Államokban és külföldön is az integrált magán-és állami ellátás felé tendál. Ez a váltás nagy hangsúlyt helyez az eredmény-orientált orvosi gyakorlatra, és jelentős szerepe a minőség biztosításában és az egészségügy gazdaságosságában. Mivel a költséges új technológiák és kezelések határt szabnak az egészségügyi kiadásoknak, a költségkímélő gyógyítás központi szerepet játszik a betegek, az orvosok és a közegészségügyi szakemberek döntésében. A választás egyre inkább azokra a diagnosztikai eljárásokra esik, amelyek a legjobbak és a legolcsóbbak. Sajnos, a választás nem mindig egyértelmű.

Disszertációmban vitatom, hogy a mammográfia ilyen módszer. A mammográfia a röntgen vizsgálathoz hasonló fejlődésen ment keresztül, megbízható, pontos és relative

Global Grant

1070. The Novartis Foundation

**Rules:**

Bursaries for future symposia.

Purpose: To enable young scientists to attend Novartis Foundation symposia (in London unless otherwise stated) and, immediately following the meeting, spend between four and twelve weeks in the department of one of the symposium participants.

Value: (a) travel expenses to symposium and host laboratory; (b) board and lodging for the duration of the bursary

Applications: Write to the above foundation including the following information:

Full name, address and date of birth, Title of symposium, Qualifications and short resumé of university education, Career history, including full list of publications, Full details of current research, Aims of future career and Names and addresses of two referees. Subject: Medical, chemical and biological research.

Open to: Applicants (of any nationality) must be aged between 23--35 years on the closing date for application. It is essential that they be actively engaged in research on the topic covered by the symposium. They should not already have accepted an invitation to participate in that symposium.

**Address:**

The Bursary Scheme Administrator  
41 Portland Place  
London W1B 1BN  
UK

**Phone:** +44 (0) 20 7636 9456

**Fax:** +44 (0) 20 7436 2840

**Rapid health assessments start on Aceh coast**  
14 January 2005 -- Rapid health assessments have begun along the coast of Aceh, in conjunction with the Indonesian government, the United Nations and the United States military. The rapid health assessments are being carried out using helicopters in order to access areas which are otherwise impossible to reach. They will cover a range of vital health needs, from water and sanitation to injuries, food supplies and the needs for vaccines.

## The Department of Urology at The East Surrey Hospital

Using high standards of medicine and technology we supply the Urological Service to a population of 350,000 in the east of Surrey and the north of Sussex. We invite you to have a look around in our departmental web site and find out more about our work.

Please use the red buttons in the left column to find your way around our site.

*Descriptions*

**Basic Urodynamics**

Manual intended to provide a basic introduction to the practice of urodynamics. It is not intended to act as a definitive text, but to provide enough information to prove that there is a tremendous amount of knowledge that must be refreshed or acquired in order to perform the procedures at an optimum level.

*Author:* White, Michael  
*Subjects:* urology  
*DeweyClass:* 616.6  
*Resource type:* guide

**Institute of Urology and Nephrology, University College London**

Details of current clinical and laboratory research programmes in both urology and nephrology, as well as news, events and links.

*Author:* University College London Medical School  
*Subjects:* kidneys, nephrology, urology  
*DeweyClass:* 616.6  
*Resource type:* documents

**Life-Tech**

US manufacturer of electronic medical devices and disposables for several specialist areas, including anaesthesia, gynaecology, neuro-otology, pain management, physical medicine and urology. The company aims to provide innovative, dependable, and easy-to-operate products while continuing to enhance those products through research and development.

*Author:* Life-Tech  
*Subjects:* anaesthesia, gynaecology, medical equipment, pain, urology

# Találatértékelés szempontjai

- Átláthatóság, jelleg: milyen célcsoportnak szól
- Szerzőség (orvos, szakíró, laikus...), a tartalom számon kérhetősége, hitelesség
- Pontosság, teljesség
- Aktualitás
- Érvényesség
